PACEMAKER

1987

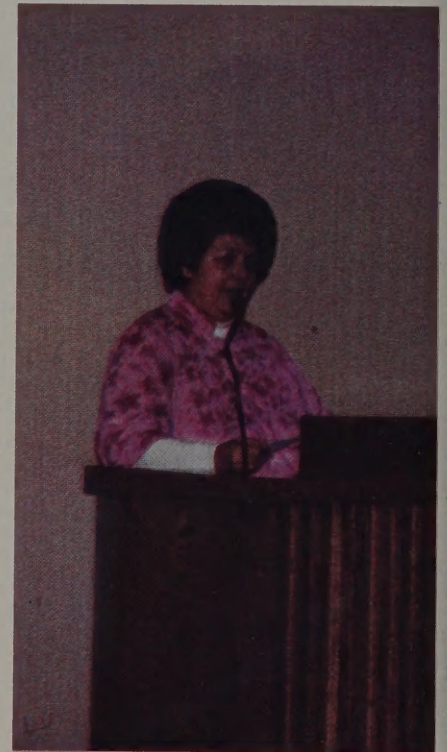

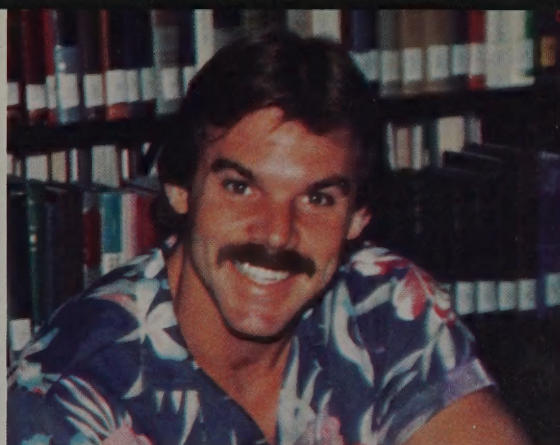

***Kettering College
of Medical Arts***

There are only two kinds of people in the world, the conscious and the unconscious. Their degree of awareness of life, its joys, its pleasures and their willingness to share this awareness with others, that is a measure of their

dedication to the golden rule and to "Love Your Brother (or Dorm Student) as Yourself". We the Yearbook Staff of 1987 dedicate this effort to Ms. Sherry Nelson, Resident Dean KCMA.

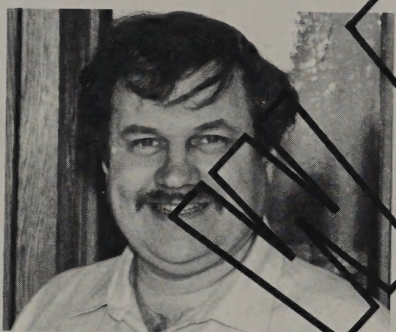

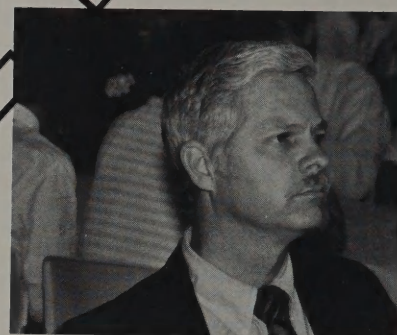

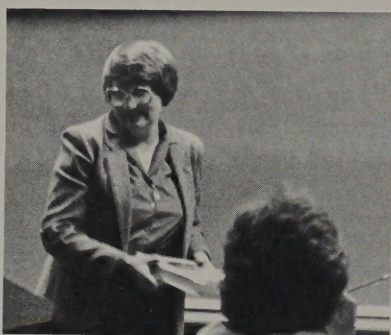

We love you Ms. Nelson.

We were placed on this earth with the freedom of choice. At KCMA we have chosen, through our professional career goals, a commitment—a COMMITMENT TO CARE.

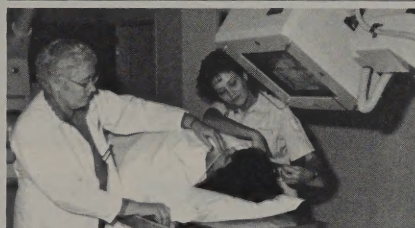

We've all run across these men and women in our scholastic endeavors, and they are "wanted"...For some wanted dead or alive but like they keep promising-Someday we'll thank them for their never ceasing efforts.

Thanx Teach,
Ed

FRIENDS

*In little ways and large
Without a selfish motive and
Without the slightest charge
Because in my philosophy
There never is a doubt
That all of us are here on earth
To help each other out
I feel the day is fruitful and
The time is worth my while
When I promote the happiness
Of one enduring smile.*

James J. Metcalfe

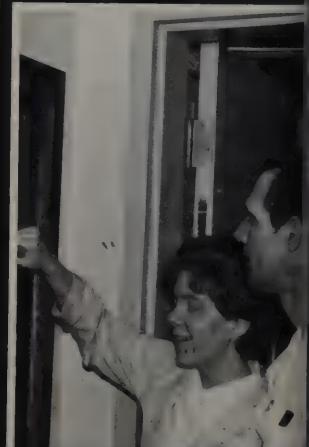

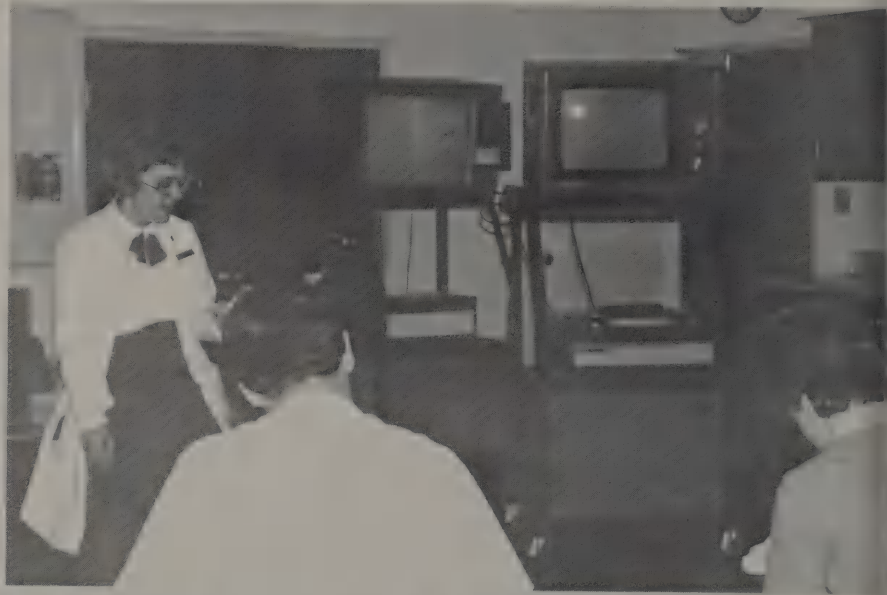

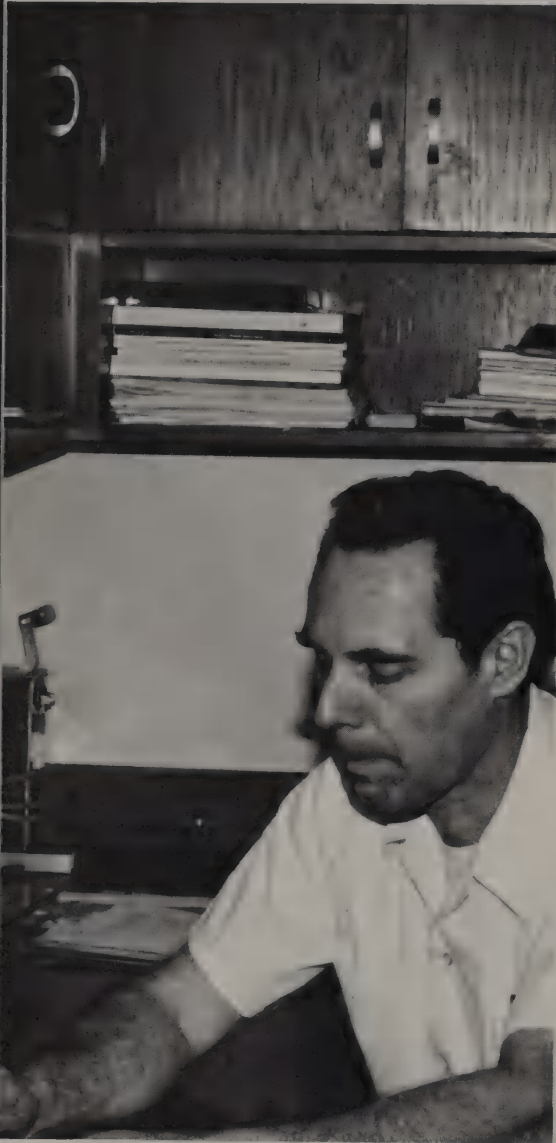

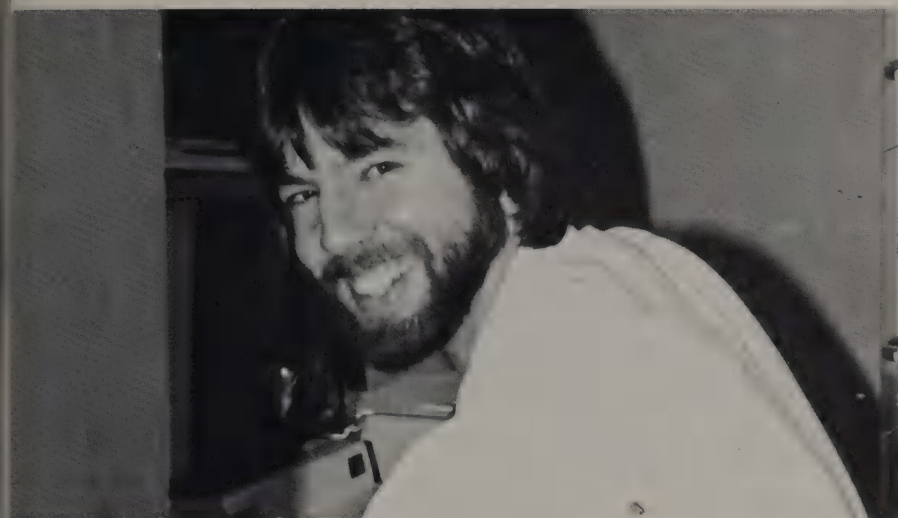

PROGRAMS

Administrative Dietetic Technology

The role of the administrative dietetic technician is to assist the registered dietitian or the food service director in assessment, planning, implementation, and evaluation of the food service operation.

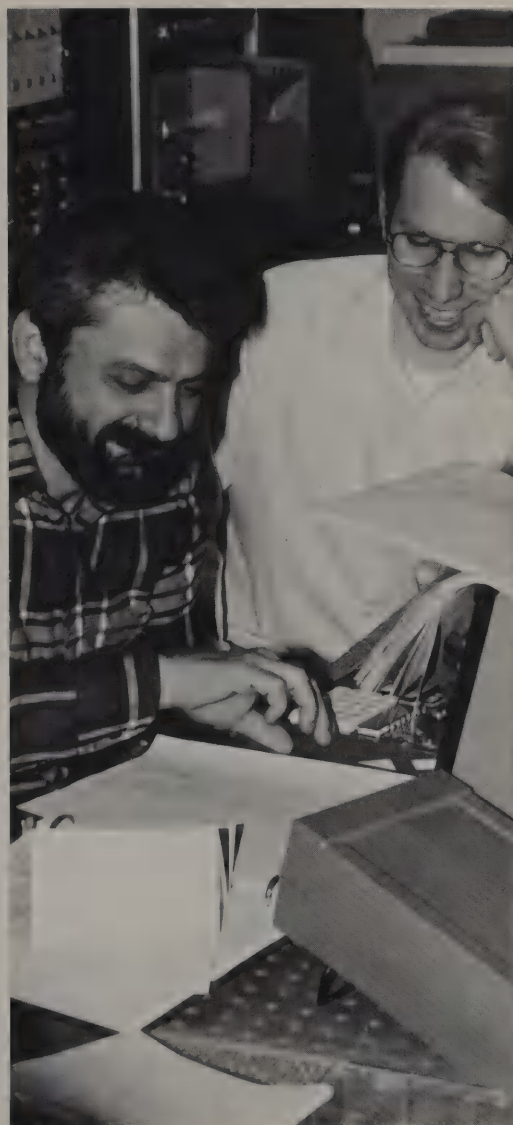

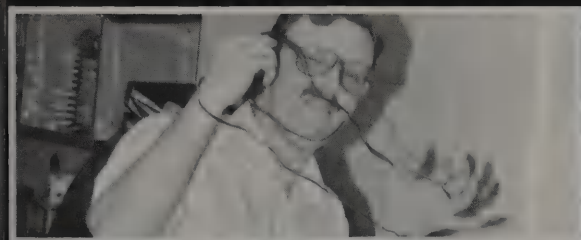

1

3

4

5

1. Dale Chin—"Look Ma, I finally got a job."
2. Ron & Joe—Terrorists at work.
2. Mike & Phil—"Here man, this will keep you awake for the test."
4. Ed—"Ha! I got loose again."
5. Steve—"He still doesn't know what he is talking about."

BMET

1

2

3

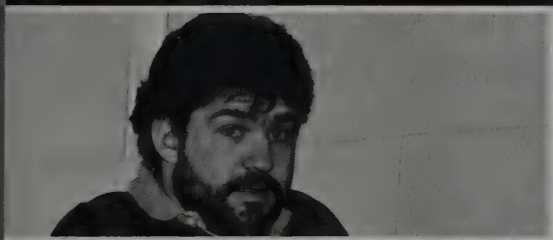

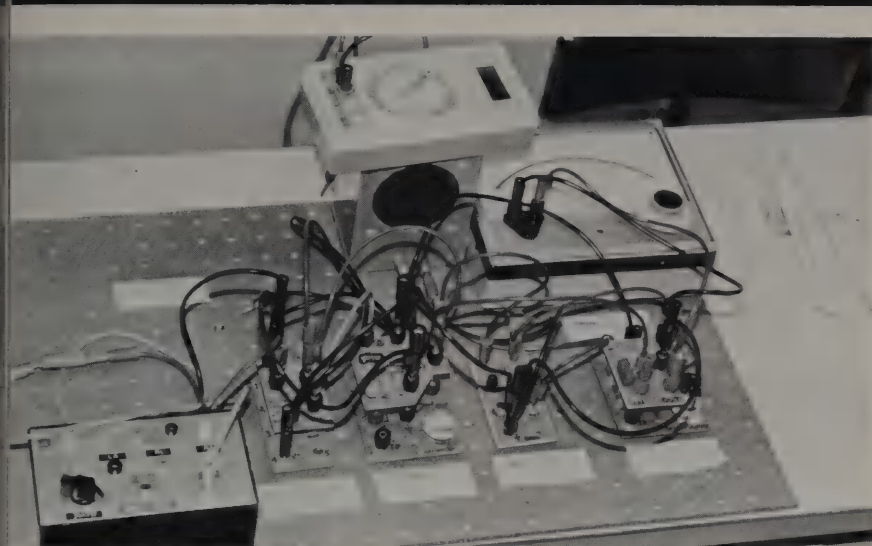

1. Stan Knight, where are the Pips?
2. Craig & Brent—"What are you doing Staurday night, Honey?"
3. Joe & Dave—"Have you got the plan?"
4. Craig—Incogneto.
5. Greg—"Am I Really here now?"

4

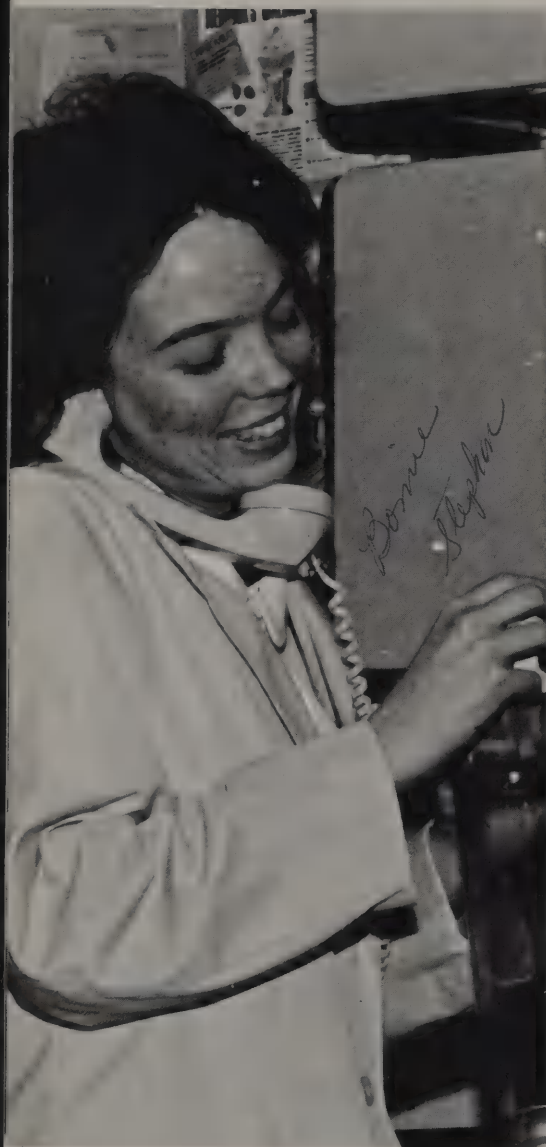

5

1. This unit will self-destruct in two minutes.
2. Fatherly guidance.
3. Phil & Ron—"Here comes DUTAL, look busy!!"
4. Dennis—"It's got to be a Monday."
5. Dave P.—"Wow, I didn't know that."

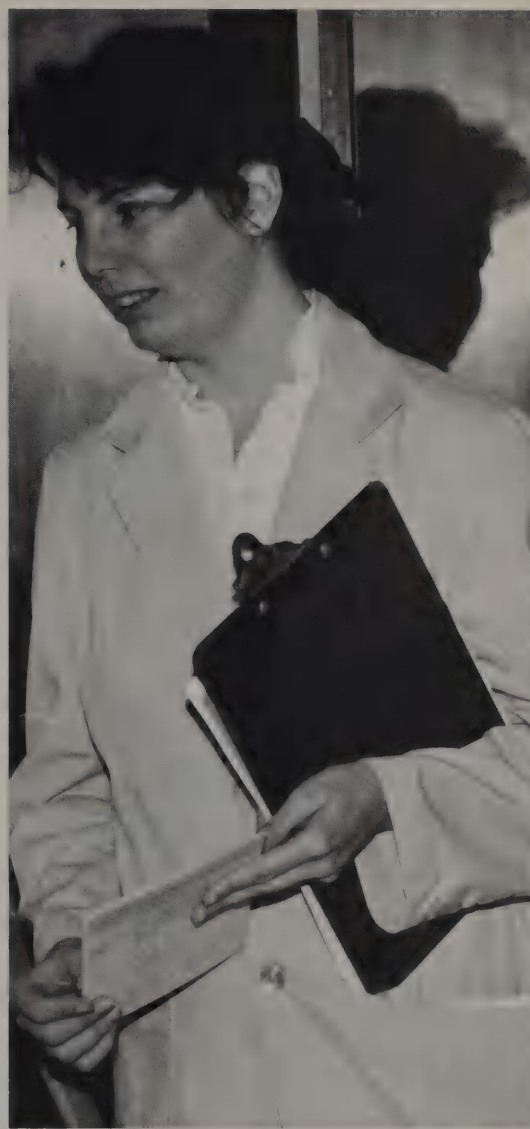

Clinical Dietetics Technology

The demand for dietetic services has increased. Reasons for this include the large number of nutrition-related health problems, the increasing life expectancy of Americans, the growing health consciousness of the public, the tremendous advances in science, and the attitude that good health care is a right rather than a privilege.

Clinical Dietetics Technology

It is the role of the clinical dietetic technician to assist the registered dietitian in the provision of nutrition care. The term "clinical" signifies that this person specializes in normal and therapeutic dietetics rather than in the administration or management of a dietary department or food system.

MLT

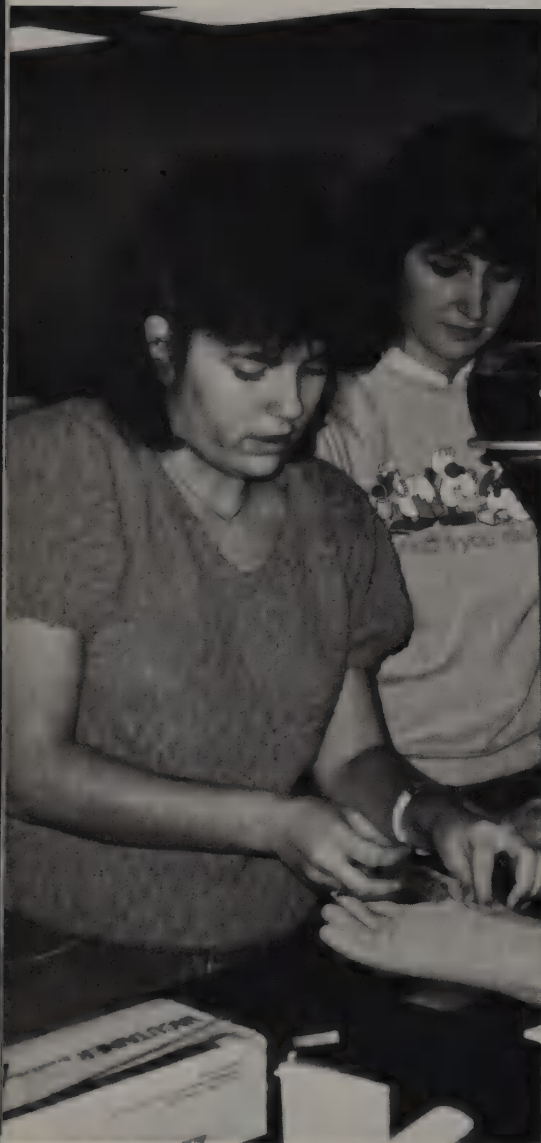

Why MLT? When asked why they made the choice of MLT, some of the student responses were:

"I like working with microscopes" "enjoy lab atmosphere"

"Like grass stuff"

"Interested in welfare of patients"

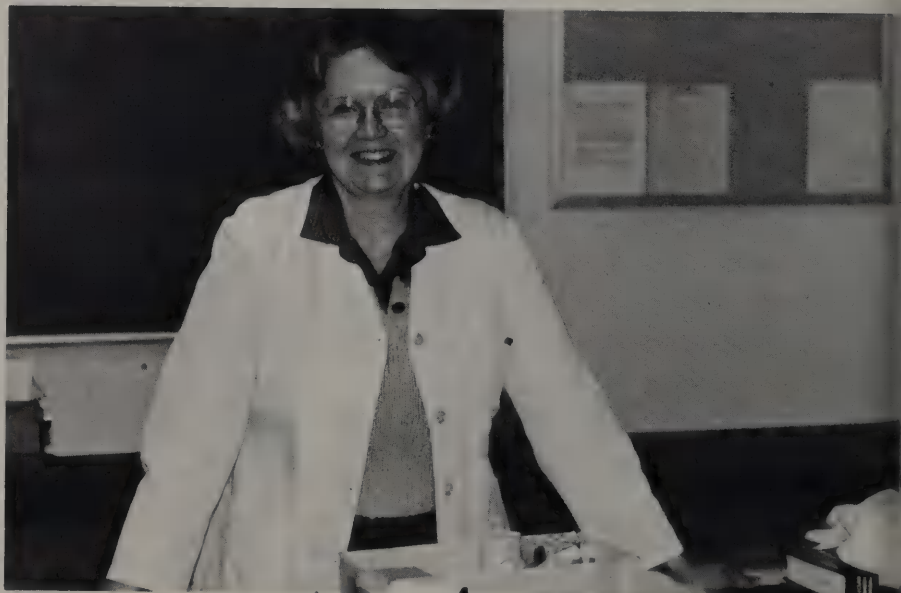

"It requires deligence"

1

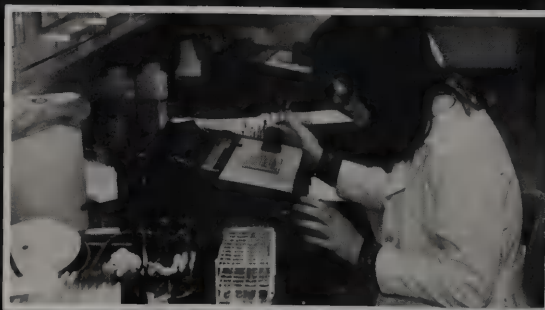

2

3

1. Kim and Susan learning to draw blood.
2. Tracy Koenig preparing slides for the microscope.
3. Marybeth Fannon loves her work.
4. Patty Hiestand performing a colorometric test.
5. Susan Wheeler - "Cheers!"

4

5

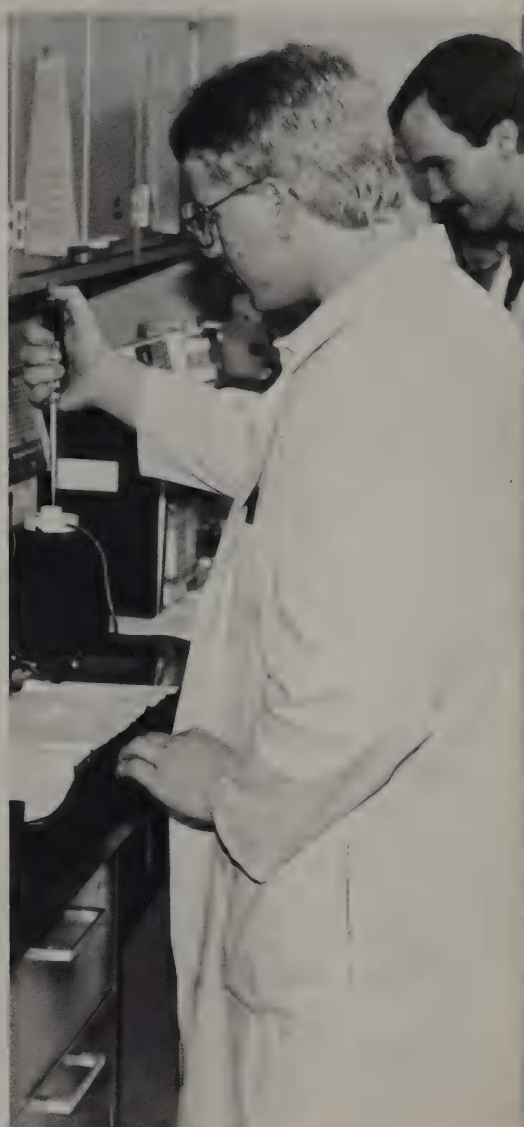

Just what is MLT? The main emphasis of the Medical Laboratory Technology Program is to teach students how to perform analysis and tests on different body fluids. These tests play an important role in the diagnosis of patient illnesses which can help in effective treatment of the illnesses. Some areas of study include: urinalysis, blood counts, hematology, immunology, and serology.

1

3

1. Lynn Petry working with the spectrophotometer.
2. Tom Gels with the glucose analyzer.
3. Marjorie Spahn - "Welcome to the MLT Dept."
4. MLT think-tank.
5. Cindy Harshman makes a discovery.

Diagnostic Imaging

The Florence Nightingale Pledge

I solemnly pledge myself before God and in presence of this assembly;
To pass my life in purity and to practice my profession faithfully.

"I hope you're (not) my nurse. I can't have a stubbed toe."

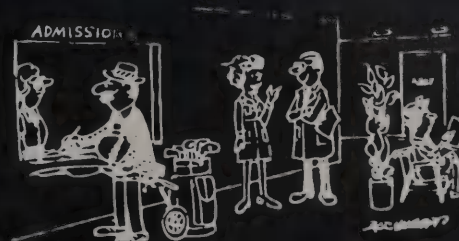

I will abstain from whatever is deleterious and mischievous and will not take or knowingly administer any harmful drug.

I will do all in my power to maintain and elevate the standard of my profession and will hold in confidence all personal matters

committed to my keeping and family affairs coming to my knowledge in the practice of my calling.

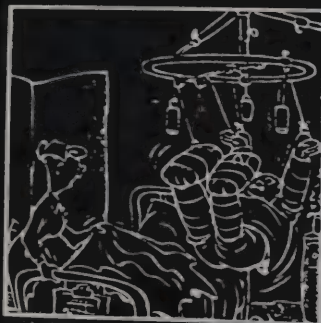

With loyalty will I endeavor to aid the physician in his work, and devote myself to the welfare of those committed to my care.

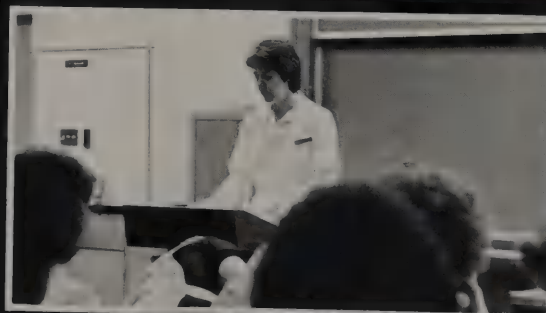

"Just what exactly did you tell Mr. Toole about the hospital to get him to admit himself?"

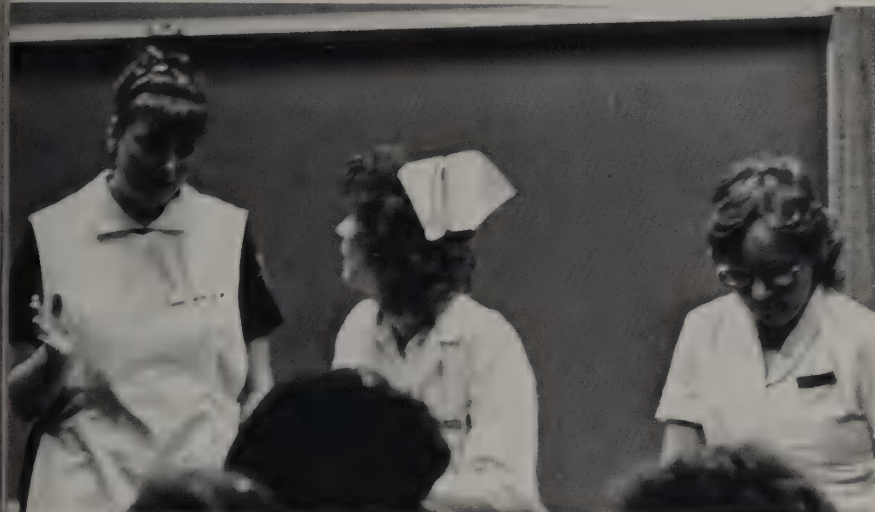

Definition of Nursing Function

Virginia Henderson said: The unique function of the nurse is to assist the individual, sick or well, in the performance of those activities contributing to health or its recovery (or to peaceful death) that he would perform unaided if he had the necessary strength, will, or knowledge. And, to do this in such a way as to help him gain independence as rapidly as possible.

"Just hang loose for some 15 minutes
it's very relaxing."

I don't see any nurses

*To Care
"To Care" is really important
In everything we do.
It's smiling when it is difficult
From every point of view.
It's taking time to pat a back
Or give a friendly nod.
It's sharing with our fellowman
Our true belief in God.*

A HOSPITAL WITH A LEGACY OF INSIGHT

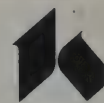

Charles F. Kettering, Dayton's legendary inventor, inspired more at Kettering Medical Center than a name. He gave it a philosophy.

Kettering Medical Center approaches health care with an optimism based on the belief that there is always a way to do something better, that progress comes from hard work and what you learn along the way. And when

you add insight, great strides can be made.

Whether it is science or service, high technology or listening to a patient, Kettering Medical Center is making strides. We have to. Mr. Kettering would insist.

What do Aviation and Cancer Research have in common?

Hipple Cancer Research Center

"that others may live"

Dayton, Ohio—the birthplace of aviation—is also the home of the Hipple Cancer Research Center. Long renowned for pioneering technology in the field of aviation, Dayton is now known for the pioneering research being done at the Cancer Center into the causes and cures of cancer.

By staying on the leading edge of new research into cell cloning, human tumor marker research and interferon, our scientists are working to free America (and the world) from the threat of cancer.

Just as the Wright Brothers changed all of our lives through aviation, the Hipple Cancer Research Center can, with your support, bring about important changes in the battle against cancer. We want Dayton to become known as the birthplace of a cure for cancer. We can't afford to lose another potential Orville or Wilbur Wright to this killer.

Congratulations Class of 1987

Closing

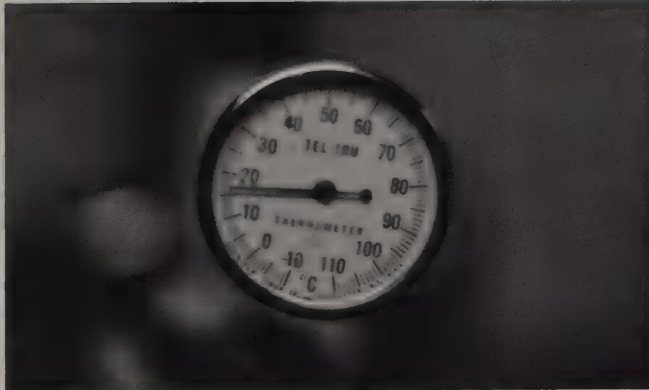

Day Worthwhile

**I count that day
as wisely spent...
In which I do
some good...
For someone who
is far away...
Or shares my
neighborhood...
A day devoted
to the deed...
That lends a
friendly hand...
And demonstrates
a willingness...
To care and
understand...
I long to be
of usefulness...**

Closing

**... In little ways
and large ...
Without the slightest
charge ...
Because in my
philosophy ...
There never is
a doubt ...
That all of us are
here on earth ...
To help each other
out ...
I feel the day is
fruitful and ...
The time is worth
my while ...**

James J. Metalfe
